

CMS20T

6.5" two-way loudspeaker

The CMS20T is a 6.5" two-way square built-in loudspeaker and is loved by contractors for its design and versatile characteristics. It can be used as a 16 ohms or 100 volt loudspeaker. In 16 ohms use, you can connect up to 4 loudspeakers in parallel on each channel of a standard 4 ohms amplifier. For 100 volt use, the CMS20T is equipped with a high-quality a 20 watts 100 volt transformer with several power tappings (20 - 10 - 5 - 2.5 watts). The loudspeaker has a 6 ½" woofer and 1" tweeter. It makes the CMS20T very suitable for the distribution of microphone calls and background music.

The housing is made of high quality ABS. The woofer is made out of polypropylene, what makes it moisture-proof. The new enforced structure of the woofer cone, results in an even more clear sound. CMS20T is humidity proof what makes it suitable for bathrooms, kitchens...

The loudspeaker is easy to install, due to its simple, quick mounting system (4 screws which are hidden behind the loudspeaker grille, which gives the loudspeaker a modern and striking design).

From the CMS20T loudspeakers can be painted in any colour.
