

M86_87

Professional handheld microphone

The M86 and M87 are professional and reliable super cardioid dynamic microphones which are perfect suited for on stage use. They are solid constructed with a robust grill to protect the diaphragm against rough handling, and are suited for indoor as well as outdoor use. The high sensitive neodymium element ensures a perfect reproduction of music and speech which will be loved by a wide variation of singers and musicians. This makes them the perfect microphones for performers and instruments. Due to the unidirectional (supercardioid) polar pattern, the feedback is reduced to a strict minimum. The M86 and M87 are both exactly the same microphones with the same specifications, except the on/off switch is only provided on the M87.

Applications:

- Live performances

System specifications:

Microphone	Type	Dynamic
Frequency	Response (± 3 dB)	50 Hz - 18 kHz
Sensitivity (1W/1m)		-74 dB
Impedance		300 Ω
Connectors		3-pin XLR
Polar Pattern		Super cardioid

Product Features:

Dimensions	51 x 178 x 51 mm (W x H x D)
Weight	0.360 kg
Construction	Copper voice coil (M86) Copper voice coil, including on/off switch (M87)
Colours	Grey

Variants:

- M86 - Vocal microphone without switch
- M87 - Vocal microphone with switch
