Vital Series Subwoofers

Shaking the ground and rattling the walls is no longer an option in most home theaters. People want the visceral impact of deep dynamic bass that brings both movies and music to life. We have always been a major provider of subwoofers in both in-wall and freestanding formats. The BassX series has been installed in homes around the world with impressive results. But now there is more.

© SpeakerCral

The new Vital subs are more powerful, more musical and more dynamic. With entirely new cabinets, drivers and dedicated amplification, these three models will deliver the kind of sonic performance discriminating customers demand.

Available with 8, 10 or 12-inch woofers and 80, 120 or 250 watts of power, there is a model for every application. Whether it is a matter of adding a bit of bottom end in the bedroom or filling the theater with bone crushing realism, there is a Vital sub for the job.

All models have automatic signal sensing power on/off, overload protection, phase control, an adjustable low-pass filter as well as inputs for both stereo and LFE channels. The driver is front facing with dual ports in the front baffle as well. This is advantageous for subs that will be loaded into wall units or other cabinetry. A recessed level control is located on top of the cabinet allowing easy access regardless of the subs position.

When deep, tight bass is a requirement, reach for the Vital series and make a dramatic impression.

V12 250 Watt

- Built-In 250 Watt Amplifier
- 12" Long Throw Woofer
- Auto Power Via Signal Sensing
- Cabinet Top Mounted Recessed Volume Control
- Magnetically Shielded
- Frequency Response: 28Hz 200Hz
- LFE (Low Frequency Effects) Input
- Overload Protection Circuit
- Dual Voltage Switch 115/230v
- Dimensions: 19"* x 15" x 161/2"**
- mm = (483 x 381 x 419) • Weight: 44lbs

kg = (19.9)

V10 120 Watt

- Built-In 120 Watt Amplifier
- 10" Long Throw Woofer
- Auto Power Via Signal Sensing
- Cabinet Top Mounted Recessed Volume Control
- Magnetically Shielded
- Frequency Response: 32Hz 200Hz
- LFE (Low Frequency Effects) Input
- Overload Protection Circuit
- Dual Voltage Switch 115/230v
- Dimensions: 16³/₄" x 13¹/₄" x 16"**
- mm = (425 x 337 x 407) • Weight: 35lbs
 - kg = (15.88)

V8 80 Watt

- Built-In 80 Watt Amplifier
- 8" Long Throw Woofer
- Auto Power Via Signal Sensing
- Cabinet Top Mounted Recessed Volume Control
- Magnetically Shielded
- Frequency Response: 45Hz 200Hz
- LFE (Low Frequency Effects) Input
- Overload Protection Circuit
- Dual Voltage Switch 115/230v
- Dimensions: 12½"* x 10¾" x 15¼"** mm = (318 x 273 x 388)
- Weight: 24lbs kg = (10.89)

* All Vital Series Subwoofers come with Limited TWO Year Warranty

* As we incorporate design improvements, specifications may change without notice
